STUDENT TESTIMONIAL

"I expected the course to be incredibly difficult and time consuming, and I wasn't sure how I was going to manage it. Even though I'm in my 30s, I'm quite old-school and I like hardcopy books. I was quite nervous about the online situation but once I read through the course information and discussions on the panel, it was relatively easy to do the quizzes and for the information to really stick. I particularly enjoyed the clarity and frequency with which the Course Instructor answered questions."
